Local Public and Private Housing Agencies in East Hampton Town (Non-profits)

There are currently 267 affordable rental units managed by various public and private, non-profit housing agencies, in addition to the Town's *Apartments in Single Family Homes, Apartments in Commercial Structures, and HCV programs.*

Of these 267 rental units, 241 are reserved for very low to moderate income households and 26 are non-subsidized, *Fair Market* apartments where the rents are kept at reasonable rates to meet the needs of median income households with good credit who do not qualify for rental assistance subsidy. Of the 241 *subsidized* rental housing units, 127 are specifically senior housing apartments for Tenants age 62 and older and 140 rental units have no minimum age restrictions. The senior housing minimum age requirement is waived for disabled persons age 18 or older at Windmill Village.

Approximately 140 units are *Project Based* subsidized; assistance runs with the rental unit. Tenants who move out do not take the subsidy with them. Approximately 100 are *Tenant Based* subsidized. Tenants can transfer their *Housing Choice Voucher (HCV)* rental assistance with them anywhere in the country to another location, subject to approvals.

The Town of East Hampton supports both public and private affordable housing initiatives and strives to offer a variety of programs and facilities to better meet the community's needs.
